About June

I have been a Realtor since 1989, coming into real estate with a background in sales and marketing.

I majored in Mass Communications and Psychology at the University of Denver.

These are both areas of expertise that I draw from in real estate and benefit my clients.

My business philosophy is all about providing excellence for my clients.

I am committed to providing the highest level of personal service and I strive to make the process of buying or selling a home smoother, easier and more fun than most people imagined possible.

I hold several advanced accreditations including CRS (Certified Residential Specialist) which only 3% of the agents in the country are certified as and I am proud to be part of that elite group.

I get things done. That's what I thrive on and that's why my clients love working with me.

June was sensitive to my physical limitations and easily made adjustments in our meetings.

Ann Parthum

Very professional, knowledgeable, high integrity and excellent follow through. She kept us informed almost daily of the progress of the sale and was able, due to experience, to anticipate what was needed to head off potential problems. She resolved problems aggressively.

What My Clients Are Saying About Me

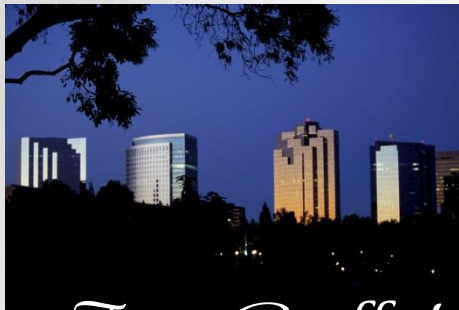

"June was very knowledgeable and kept us informed throughout the whole process. She walked us through the steps of selling our home. She was able to recommend people to help us do work on our home during the selling process. She not only has the buyer lined up, she has a back-up buyer in line also. She was working for our good, and we appreciate her expertise."
